NEW PROVISIONAL CUSTOMS TARIFF.

INTRODUCTORY NOTE.

By a Legislative Decree of the Swiss Federal Assembly, dated 28th February last, the Federal Council was authorised, as a provisional measure, "to adapt the Customs Tariff duties to the present economic situation and to bring the new duties into force at a date which shall appear most suitable." The Federal Assembly is, before 30th June, 1923, to decide whether the decisions taken by the Federal Council shall be maintained or, if necessary, what modifications shall be made in such decisions.

In virtue of the powers thus conferred, the Federal Council issued, in the "Recueil des Lois Fédérales" for 15th June, a Decree, dated 8th June, introducing a new Provisional Customs Tariff, as from 1st July. The following is a translation of the Decree of June 8th :—

ARTICLE 1.—Goods imported into or exported from Switzerland are subject to Customs duties in accordance with the annexed Tariff, which replaces, until further notice, the Tariff of 10th October, 1902, as modified by treaties.

ARTICLE 2.—Otherwise, the provisions of the Federal Customs Tariff Law of 10th October, 1902, as subsequently amended, remain in force.

ARTICLE 3.—The following are admitted at the old Tariff rates :—

(*a*) All consignments placed under Customs control before the new rates come into force.

(*b*) All consignments despatched direct to Switzerland in respect of which it is proved that they were already *en route* for Switzerland before the 15th June, 1921, even if they are imported after the new duties come into force.

Goods sent to Switzerland during the period from the 15th June to the 1st July, 1921, cannot be cleared at the old rates unless they are placed under Customs control before the 1st July, 1921.

(*c*) Goods stored in Customs warehouse in Switzerland, and goods cleared under one-year bond, when they have paid import duties before 1st July, 1921.

ARTICLE 4.—The new Tariff shall come into force on 1st July, 1921.

A Notification of the Swiss Customs Department, dated 17th June contains, *inter alia*, the following provisions with regard to the application of the new Tariff duties :—

In accordance with the provisions of Article 3 of the Decree of 8th June, concerning the revision of the Tariff, the Customs treatment of goods during the period of transition will be as follows :—

1. All goods coming from foreign countries, and not subject to import restriction, which are placed under the control of the Customs before 1st July, 1921, shall still be admitted on payment of duty under the present Tariff if they are cleared (*dédouanées*) by 10th July at the latest.

2. All goods coming from foreign countries, and not subject to import restriction, which have been despatched direct to Switzerland before 15th June, 1921, shall also be admitted on payment of duty under the present Tariff, even if they are placed under the control of the Customs after 30th June, 1921, provided that they are cleared through the Customs immediately.

3. On the other hand, all goods coming from foreign countries, and not subject to import restriction, which are placed under the control of the Customs after 30th June, 1921, shall be taxed under the Tariff of 8th June, 1921, except as otherwise provided in No. 2 above.

4. Goods lodged in Federal warehouses before 1st July, 1921, and not subject to any import restriction, shall be taxed under the new Customs Tariff if duty is paid thereon after 1st July, 1921.

A full translation of the Tariff annexed to the Decree is given in the following pages. For purpose of comparison, a column has been inserted showing the duties in force up to the 30th June, the duties quoted being those of the "Conventional" Tariff (*tarif d'usage*), which was that applied to goods from the United Kingdom.

The new duties are, generally speaking, considerably higher than those formerly in force, and most goods which were formerly duty-free are now subject to duty. It will be remembered that the duties on various goods were increased (and certain duty-free goods were made dutiable) by a Decree of the Federal Council dated 23rd June, 1920. For the most part, the duties then imposed are maintained in force under the new Provisional Tariff, though there are a few cases in which the duties imposed in June, 1920, are increased or reduced.
